Short bio

Roberto Aringhieri, Dr. Ph.D. is an Associate Professor of Operational Research at the Department of Computer Science, University of Turin. He has multidisciplinary education background: he graduated in July 1996 in Computer Science at the University of Pisa, and he attended a Ph.D. program in “Mathematics for Economics Decisions” at the University of Pisa defending his thesis in June 2000. After the Ph.D., he was a research fellow at DISMI, University of Modena and Reggio Emilia, Italy (Dec 2000 - Nov 2002). From 2003 to 2018, he was Assistant Professor at the Department of Information Technologies (DTI), University of Milan. and then at the Department of Computer Science, University of Turin. He got the national scientific qualification (ASN) for the Italian Universities as Full Professor in Operational Research. From 2003, he is in charge of several academic courses, mainly in Operational Research, Combinatorial Optimization, Models and Methods for supporting decisions, and Algorithms and Data Structures.

His main skills are in the field of quantitative analysis using Operational Research methodologies and Simulation, and the design of efficient optimization algorithms. Following its educational background and its natural bent, his scientific career is characterized by the ability to change research topics successfully and productively, as shown in his list of papers. As well as other topics as Bioinformatics, Combinatorial Optimization and Simulation and Performance Evaluation, Roberto Aringhieri is working on Health Care Management Science, especially on emergency medical services, workforce management, operating room planning and clinical pathways optimization. He has been in charge of several pure and applied research projects. Among them, with Elena Tànfani he has been in charge of the project “*Clinical Pathways: New Patient Centered Organizational and Management Models*”, under the program “Futuro in Ricerca – 2008” (accepting rate $\leq 3\%$), funded for 433,000 euro. He published 67 papers in blind review, including 27 papers in refereed international journals, 32 in refereed conference proceedings, and 8 book chapters. Further, he published 3 editorials and 7 popular papers. At the end of 2019, he has been a speaker at over 45 scientific conferences, including 7 invited talks [73]–[79]. With Davide Duma, he was awarded the *Best Conference Paper* at International Conference “Simulation and Modeling Methodologies, Technologies and Applications”, Wien, 2014, with a paper titled “A hybrid model for the analysis of a surgical pathway”. Bibliometrics (Scopus, 18 March 2020): documents 49, citations 681, h-index 15.

From 2015, he is member of the committee for the Ph.D. Program in Computer Science at the University of Turin. He organised of several international conferences (CTW 2008, ORAHS 2010, ESI XXXI 2014), and member of the scientific committee of the international conference organised by the “EURO Working Group” (EWG) on “Operational Research Applied to Health Services” (ORAHS). From 2010, he is member of the EWG board, and from 2019 he is co-coordinator of the EWG. He is member of the program committee of the “International Conference on machine Learning, Optimization & Data science” (LOD 2018 – 2020). He organised several streams and/or sessions on health care topics at the following international conferences: European Conference on Operational Research (EURO), Conference of the International Federation of Operational Research Societies (IFORS), Winter Simulation Conference (track “Healthcare Applications”). Guest editor of 3 special issues on health care topics published on international journals. From 2016, he is Associate Editor of the international journal “Operations Research for Health Care”.

Chapters on international books

- [62] D. Duma and R. Aringhieri. "The Real Time Management of Operating Rooms". In: *Operations Research Applications in Health Care Management*. Ed. by C. Kahraman and I. Topcu. Vol. 262. International Series in Operations Research & Management Science. Advance online publication 9 December 2017. Springer, 2018, pp. 55–79. DOI: 10.1007/978-3-319-65455-3_3. URL: <http://hdl.handle.net/2318/1654504>.
- [63] R. Aringhieri and D. Duma. "The optimization of a surgical clinical pathway". In: *Simulation and Modeling Methodologies, Technologies and Applications*. Ed. by M.S. Obaidat et al. Vol. 402. Advances in Intelligent Systems and Computing. Invited Chapter. Springer International Publishing, 2015, pp. 313–331. DOI: 10.1007/978-3-319-26470-7_16. URL: <http://hdl.handle.net/2318/156281>.
- [64] B. Addis, R. Aringhieri, G. Carello, A. Grosso, and F. Maffioli. "Workforce Management based on forecasted demand". In: *Advanced Decision Making Methods applied to Health Care*. Ed. by E. Tanfani and A. Testi. Vol. 173. International Series in Operations Research & Management Science. ISBN 978-88-470-2320-8. Springer, 2012, pp. 1–11. DOI: 10.1007/978-88-470-2321-5_1.
- [65] R. Aringhieri, B. Addis, G. Carello, M. Gribaudo, and A. Grosso. "Advanced Workforce Management in Healthcare". In: *Operational Research Informing National Health Policy*. Ed. by P. Harper, V. Knight, I. Vieira, and J. Williams. Selected Proceeding of the 37rd International Conference on Operational Research Applied to Health Service (ORAHS 2011). ISBN 978-0-9569158-0-1. School of Mathematics, Cardiff University, 2011, pp. 308–319.
- [66] AA.VV. *Operations Research for Patient-Centered Health Care Delivery*. Ed. by R. Aringhieri et al. Selected Proceedings of the XXXVI International ORAHS Conference. ISBN 978-88-568-2595-4. Franco Angeli, 2010.
- [67] R. Aringhieri. "Models for the Efficient Team Planning at Emergency Medical Service of Milano". In: *Operations Research for Health Care Delivery Engineering*. Ed. by X. Xie, F. Lorca, and É. Marcon. Selected Proceeding of the 33rd International Conference on Operational Research Applied to Health Service (ORAHS 2007). Publications de l'Université de Saint-Étienne, 2008, pp. 281–288. ISBN: 978-2-86272-507-9.
- [68] R. Aringhieri, G. Carello, and D. Morale. "A simulation based tool for ambulances management evaluation". In: *Operations Research for Health Care Delivery Engineering*. Ed. by X. Xie, F. Lorca, and É. Marcon. Selected Proceeding of the 33rd International Conference on Operational Research Applied to Health Service (ORAHS 2007). Publications de l'Université de Saint-Étienne, 2008, pp. 379–392. ISBN: 978-2-86272-507-9.

- [69] R. Aringhieri and M. Dell'Amico. "Solution of The SONET Ring Assignment Problem with capacity constraints". In: *Metaheuristic Optimization via Memory and Evolution: Tabu Search and Scatter Search*. Ed. by C. Rego and B. Alidaee. Kluwer Academic Publisher, 2005, pp. 93–116. DOI: 10.1007/0-387-23667-8_4. URL: <http://hdl.handle.net/2318/56111>.

Editorials on international journals.....

- [70] R. Aringhieri, V. Knight, and H. Smith. "ESI XXXI – OR applied to Health in a Modern World". In: *Health Systems* 5.3 (Oct. 2016), pp. 163–165. DOI: 10.1057/s41306-016-0012-5. URL: <http://hdl.handle.net/2318/1596990>.
- [71] R. Aringhieri, V. Knight, and H. Smith. "ESI XXXI – OR applied to Health in a Modern World". In: *Operations Research for Health Care* 8 (Mar. 2016), pp. 22–23. DOI: 10.1016/j.orhc.2016.01.002. URL: <http://hdl.handle.net/2318/1559530>.
- [72] R. Aringhieri, E. Tānfani, and A. Testi. "Operations Research for Health Care Delivery". In: *Computers & Operations Research* 40.9 (2013). Advance online publication 8 November 2012, pp. 2165–2166. DOI: 10.1016/j.cor.2012.11.004. URL: <http://hdl.handle.net/2318/119034>.

Invited talks.....

- [73] *Online optimization in health care delivery: an overview of applications*. OR2019, Conference of the national Operations Research societies of Germany, Austria and Switzerland, Dresden, Germany. **Invited talk**. Sept. 2019.
- [74] *Alternative research trends in operating room planning*. 7th Workshop of the French Working Group on Operations Research and Health Care, Paris, France. **Invited talk**. June 2018.
- [75] *Emergency Medical Services I – Ambulance Management*. Summer School on Game Theory and Health Management – Campione d'Italia. **Invited talk**. Sept. 2013.
- [76] *Emergency Medical Services II – Workforce Management based on Forecasted Demand*. Summer School on Game Theory and Health Management – Campione d'Italia. **Invited talk**. Sept. 2013.
- [77] *Patient-centered Healthcare Delivery*. Workshop on "Health Services", Karlsruhe, Germany. **Invited talk**. Sept. 2011.
- [78] *Metaheuristics for Solving SONET Network Design Problems*. International Summerschool on Metaheuristics, Tenerife, Spain. **Invited talk**. Mar. 2003.
- [79] *A Linear Algorithm for The Hyper Wiener Number of Chemical Trees*. Dimacs Workshop on Discrete Mathematical Chemistry, Rutgers University, USA. **Invited talk**. Mar. 1998.
